Design Your Own Coin

Create your own coin with this hands on activity!

Age Range: 4+

Materials: colored pencils, crayons, paint, or pencil; paper or the [Design Your Own Coin worksheet](#) (PDF)

Did you know that the Mint makes coins with different designs? For example, as part of the [America the Beautiful Quarters® Program](#), the Mint makes quarters with different designs of national parks and other national sites for each of the 50 states and U.S. territories.

Explore the different coin designs in the [Coin Library](#). The next time you are on a walk in your local community, get inspired by what is around you. Brainstorm ideas for what you would want to see on a coin and then draw, sketch, or paint your design using your own paper or the [Design Your Own Coin worksheet](#) (PDF).

Post a picture of the creation to your social media account, using #getcoinmoving

The economy needs you! After doing this activity, make sure your family gets their coins back into circulation!
